

Don't configure your system unless you're ready to connect your system to a live copy of QRZ.com. Your QRZ system privileges will be limited.

Your Password:
 ***** Be sure to write it down.
 ***** Enter it again to confirm.

Your Private Email Address:
 ***** Be 100% sure of the spelling.
 ***** Enter it again to confirm.

This email address is not shown on the QRZ website and is used only to deliver your account login information. Only one email address can be used here. To complete your registration, this must be a valid address where you receive email. Note that if used, your anti-spam software must accept messages that originate from editor@qrz.com.

Security Code:
 8 9 F D C 7

AP007: For security purposes, please enter the characters from the box above into this box.

Continue

写真4 パスワードとe-mailアドレスを入力すると「Security Code」が出て来るので、これを入力してから「Continue」をクリックする。

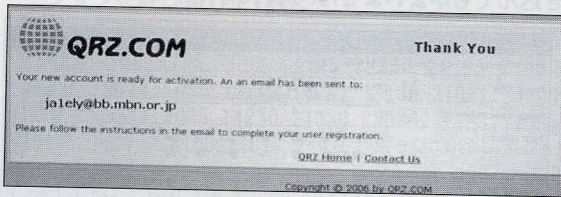

写真5 QRZ.com登録完了ページに「Thank You」と出れば登録が完了。

件名 : QRZ Account Activation Key for FO0ELY

This message comes to you from the QRZ User Account Center.

A special Activation Key has been generated for your QRZ account.

YOUR KEY: XXXX XXXX

You should safeguard this KEY as it provides access to your QRZ login account. To enable your account, go to:

<https://secure.qrz.com/reg>

When asked for a KEY to validate, please input the KEY exactly as shown above.

For your convenience, clicking the following link will complete the authorization in one step:

<https://secure.qrz.com/reg?op=ema&code=XXXXXXXX>

Please note that this KEY is not your account password. To get your account password you must go to the website shown above and enter your authorization KEY.

Thank you for using QRZ.COM.

写真6 登録が完了するとQRZ.comからメールが届く。

アップデートの方法

次に自分のコールサイン、名前、QTH等をアップデートしてみましょう。アップデート方法ですが、先ほどのQRZ.comのホームページを開きユーザーIDとパスワードを入力しログインします。コールサインを検索する入力枠の右側の「Main Menu」をクリックすると(写真7)、QRZ Site Map and Main Indexのページが開きますので「Help Center」とやや大きめの赤字で書いてある所をクリックします(写真8)。

そうするとDX-Helperにアップデートの依頼をしている投稿リストのページが開きます(写真9)。

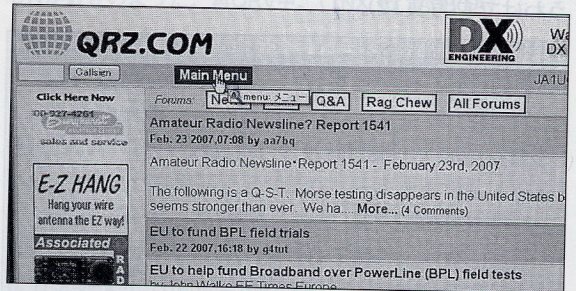

写真7 QRZ.comのホームページを開きユーザーIDとパスワードを入力しログイン。コールサインを検索、「Main Menu」をクリックする。
